Testimonials

The format of the training course was very easy to understand. The clear cut information on each area describing in detail with supporting information made it easy to comprehend. Working in the healthcare industry I can now apply what I've learned because I fully understand HIPAA and can make confident decisions. This module has taught me how HIPAA has several capacities from how I write my documentation and how I protect my workstation. It also has revealed that my organization as a whole has a responsibility of holding not only myself but anyone associated with the organization accountable to HIPAA. I would definitely recommend this module to my co-workers and others to learn more about HIPAA.

Luis C Delgado

The Certified HIPAA Privacy Associate (CHPA) online certification course was of immense benefit to me as I was able to learn the HIPAA requirements with regards to confidentiality, Integrity and availability as it applies to Health Records. I particularly appreciate the sections that discuss privacy protection without hindering quality patient care and compliance issues.

John Adetunji Oyeleke

The CHPA online training for me is superb. Although we have several training sessions here, I find this online an enriching experience. The trainer, slides are all well prepared. I really look forward to having some more in the future for us to kept apprised and always be reminded of the possible penalties if we violate this privacy rule. From the trainer and to all those who helped prepare the stuffs, thank you for the knowledge imparted.

Arlene B. Matanguihan, CPHM
Utilization Management Manager
Calvos Insurance

I felt the information given was very informative since I virtually knew nothing about HIPAA except not to talk about a patient's personal or medical information. As I see now, it is much more detailed than that. I will keep my notes close by so they can be referred to as necessary.

Karen Legge

I enrolled in the online training for CHPA through training-hipaa.net. As a medical student with no previous exposure to HIPAA, I found the online material provided to be extremely easy to understand, comprehensive in nature and conveyed the salient points necessary for CHPA certification. I would recommend this course without hesitation to anyone that is a novice to the material.

Ian Britton

I have just completed the CHPA training and certification module offered by Supremus Group and wanted to share what I found to be a very positive experience. The ease of access and convenience of the online environment allowed me to complete the training according to my own schedule. The course content was extremely knowledgeable in respect to current HIPAA regulation regarding ARRA, business associates, covered entities, and the Hi-Tech Act. I have already begun recommending the HIPAA training and certifications offered by Supremus Group to my students and colleagues.

**Associate Professor, Director HIM Program
Manchester, NH**

I took the CHPA course and passed. I learned so much, Bob and his crew were awesome!!!

L. Shearin, Reno, NV

I enrolled in the CHPA course provided by training-hipaa.net and found it to be comprehensive, easy to follow and effective at teaching the important aspects of HIPAA. I would recommend the course to anyone wishing to obtain certification and receive a comprehensive understanding of HIPAA basics, security and privacy regulations. - Sanjay

**Sanjay V. B. Patel
GEP 2012**

I am a social work student at a major university wanting to gain HIPAA compliance certification for a future internship opportunity. The site training-hipaa.net offered me an in depth online training that i used to learn many new things about HIPAA and state laws. Their staff was committed to working with me to make sure i got the training i needed.

Todd Obermeyer

As a medical student I enrolled in the "Certified HIPAA Privacy Associate (CHPA) Online Training and Certification Test." I found the course to be very informative, well taught and worth every cent. The lecturer's went thoroughly through the course and gave real life scenario examples, which made it much easier to understand. Finally the service providers were kind and very helpful throughout the course. I highly recommend this program to anyone in need of a well taught HIPAA program." - Hasif Hakim

Hasif Hakim

I studied hard for my CHPA. The course work was challenging for me. I found the Supremus Group LLC, namely Bob Mehta to be highly professional, supportive and extremely HIPAA knowledgeable. It did not matter when I e-mailed or when I telephoned, Bob Mehta consistently got back with me on a very timely manner and worked with me to answer questions and provide me with detailed information regarding the CHPA course and concepts. I applaud Bob Mehta as if it was not for him and his support, I do not believe I would have succeeded.

Noemi

The course helped me tremendously in understanding the HIPAA Privacy laws. I feel as if everyone in healthcare should take this course to better serve and protect patients rights.

Christian Puntarelli
Geb Medical

The CHPA course was very detailed but in a format that was easy to follow. The information was all inclusive. I have been in the medical profession for almost 30 years and learned quite a bit of information taking this course. I feel that we all need to refresh our memory regarding important information in the medical field. The issue of privacy is one of the most important issues we have to deal with. People are sharing very detailed and personal issues with me and I am in a very important position as to how I treat that information. I always thought that I had a healthy respect of others personal information and how I treat that information. I have found that I take a new attitude toward the professionalism of nursing after going through this process of CHPA certification. This process will assist me through my life in improving the care I give those I interact with both on a professional as well as private level.

Susan Porter, RN

I highly recommend this training to every HIPAA professional. It helped me in understanding the policies, procedures and audit processes required of my organization.

Krishna Prasad

It was really great to take this course to know more US health insurance sector and their privacy policies. This also helps in Preventing and implementing techniques for Health Care misuse. The information shared is wonderful. I would like to go ahead and refer my colleagues to take this course.

Subeesh MB

Genpact, Bangalore, India

The course content was very well explained and showcased in the presentations. It was very informative and was easy to understand. I would like to recommend people to take your training in case they are required to.

Mithun Divakar

www.symphonyms.com

The experience was positive and the HIPAA information was presented with a clear understanding. I will recommend your company to all of my colleagues. Thank you so much for your time.

Cherie Vanterpool

Health and Wellness Coordinator Assistant

I recently took the online course for the HIPAA Certification. I was very pleased with the material, the outline and the detailed information that was included in the course. The material used was updated and easy to understand. I plan on taking what I have learned from this course and sharing it with my co-workers to inform them of the many laws and regulations, updates and changes made to the HIPAA Privacy Rule.

Cayce Nichols

Bluegrass Pain Consultants, PLLC

The Instructor provided easy to understand examples, that when related to the content, made it very easy to interpret and apply towards the subject. Throughout the presentation, the instructor provided real life examples, which made the material and subject matter understandable and easy to follow. I would recommend this course to anyone!

Roger Kory Zuckweiler
PhysioWorks & Informatics-Health

As a Systems Engineer working to specialize in the security area of the IT industry, I chose the CHPA as the first step along the security path in my career. This test proved to be a great entry level certification for HIPAA compliance. The exam and course was well documented and allowed for a beginner to truly grasp the concept and ideas behind HIPAA.

Kevin Kruger
Technical Projects Systems Engineer

The course is a very complete and intensive training. It opened my eyes to the complexity of the law, how it applies to me and other sections of the industry.

Peri Gretton BSRT
InSightec
Americas Applications Manager

Suite 400
Dallas, Tx 75244

After having taken this course, I now have a better and more detailed understand of the history, fundamentals and importance of HIPAA, privacy and security. I also have a fuller, more well-rounded view of what they mean for the healthcare industry. I have taken several other HIPAA courses for other work and learning environments so I have had to be in compliance with HIPAA for quite some time now. I appreciate this course and the instructor's expertise and applicable examples on the topics covered."

Nicholas Blackstock

Thank you for your website which is a place where health care professionals are able to receive HIPAA training and certification. Your dedication to this field was demonstrated by your prompt responses, encouragement and motivation to my staff and myself. At this time I feel confident that we are able to uphold the HIPAA standard as it relates to Security and Privacy. I am proud to be a Certified HIPAA Privacy Associate.

RT Johnson

The CHPA certificate helps you to gain the knowledge on the HIPAA regulations for any health care working associate and will be a boon for the associates who are directly working for the HIPAA-related tasks.

David

The instructor provided easy to understand examples, that when related to the content, made it very easy to interpret and apply towards the subject. Throughout the presentation, the instructor provided real life examples, which made the material and subject matter understandable and easy to follow. I would recommend this course to anyone!
